

Laboratory of New Semiconductor Materials

Institute of Physics of USP (2015)

We are looking for **undergraduate and graduate students, as well as postdocs**, to work in the field of **nanotechnology** applied to **solar cells** (collaboration with CNR in Italy), **quantum cascade lasers** (collaboration with the University of Princeton in USA), and **infrared photodetectors** (collaboration with INL in Portugal). Please contact Prof.

Alain Quivy (+55-11-30917147 or aquivy@if.usp.br).
