

| | |
|--------------|--|
| | Friday |
| | |
| | Large Room |
| | |
| | Chair: Luis Orozco |
| 8:30 | E. Polzik: <i>Back action evading quantum measurement in the negative mass reference frame</i> |
| 9:00 | |
| 9:15 | G. Leuchs: <i>Monitoring the transition from a squeezed to a thermal state of light</i> |
| 9:30 | |
| 10:00 | D. Felinto: Formation of zero-area single-photon pulses by resonant propagation through a hot atomic ensemble |
| 10:30 | Coffee Break |
| | Chair: Paulo Nussenzveig |
| 11:00 | J. Bergou: <i>Duality in multi-path interferometers</i> |
| 11:30 | S. Pádua: <i>Experimental observation of fractional topological phases with photonic qudits</i> |
| 12:15 | CLOSING (12:15) |
